Subject: Opportunity to speak with the office of Canadian Heritage

Good Afternoon,

You may have seen this article on CBC recently, addressing the challenges the pandemic has created for the arts scene in northern Ontario:
<https://www.cbc.ca/news/canada/sudbury/pandemic-arts-impact-1.6307497>

The office of the Minister of Canadian Heritage has reached out and said, “We are aware of the situation and are here to help arts and culture workers in your ridings. If there are any local councils or organizations that would like to meet with us – I would be happy to facilitate them.”

I’m passing this along to see if anyone would like to take them up on that offer, or if you know of any organizations that would be interested in a possible meeting. Nothing guaranteed, but I’d be happy to see if I can make something happen.

Thanks,

Subject: Proposed regulatory changes under the Aggregate Resources Act

Dear Ontario Heads of Council and Clerks,

The Ministry of Northern Development, Mines, Natural Resources and Forestry recognizes the critical role Ontario's municipalities play in the lives of Ontarians. We value our strong collaborative partnership with municipalities and the associations that represent their interests.

I am writing to inform you, the Ministry of Northern Development, Mines, Natural Resources and Forestry is proposing regulatory changes under the *Aggregate Resources Act*. These changes will harmonize with Ministry of the Environment, Conservation and Parks' new provincial requirements under the *Environmental Protection Act* (EPA) for soil that is moved during construction activities to another site for a beneficial reuse (i.e., excess soil). Ontario Regulation 406/19, and Rules for Soil Management and Excess Soil Quality Standards include risk-based quality standards for the safe reuse of excess soil.

We invite you to review the changes and offer comments.

A complete summary of the proposed regulatory changes can be found on the Environmental Registry at the following address: www.ero.ontario.ca
Then search for notice: 019-4801

There are several ways you can comment on this proposal, including:

1. Directly through the Environmental Registry posting (click on the "Submit a comment" button)
